

DRYER

The latest breakthrough in imaging technology

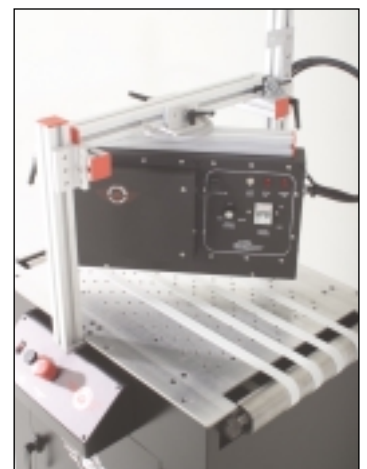

Mail-Quip's Image Pro Series 600 Speed Dryer provides high efficiency state of the art quartz infrared drying for your inkjet application.

Mail-Quip's Speed Dryer is an essential device when working with coated or glossy type media and high resolution imaging.

Combined infrared and convection drying increases production and improves product quality for that competitive edge.

Mail-Quip's Speed Dryer along with variable speed base interfaces with your current equipment. Speed Dryer has been developed for trouble free set-up and maintenance.

Specifications: Dryer

Base Dimensions

32L x 23W (Variable H from 31.50 to 36)

Base with Mounting Assembly

32L x 23W x 59H

Speed

Variable up to 700 Ft/Min

Electrical Base

110VAC / 20Amp

Motor

Variable DC

Product Minimum Size

3.5"

Product Maximum Size

18.25"

Transport

4 Heat Belts

Features

- Interfaces with host equipment
- Adjustable Belts
- Fully ported vacuum transport
- Rotating dryer mount
